Seating

Make Your Space Exceptional

Our days are full of challenges and opportunities—and chances to bring people together in new and meaningful ways. Complete with numerous seating configurations, fabrics, and finishes, the West Hill™ casual lounge collection by HON has been thoughtfully designed to create a comfortable, lived-in space that fosters flexible collaboration within the workplace.

A Casual Collection for the Changing World

The way we work is changing; the best ideas don't always happen at a desk, and the not-so-nine-to-five schedule is rapidly on the rise. Inspired by multitaskers, creative thinkers, and innovators alike, West Hill™ was designed to provide a versatile, modern space where anyone can do their best work, collaborate, or simply relax.

Tim Buchenberger

Rick Joutas

In collaboration with HON, the QDesign team of Tim Buchenberger and Rick Joutas created seating scaled not only for comfort but also for ease of space planning. "Our goal is to create meaningful pieces that enrich the user experience," says Joutas. As a result, West Hill™ is soft but structured, with "lived-in" details that feel at home anywhere in the modern office.

Features

West Hill Casual Lounge

Lived-in upholstery detail is West Hill's calling card; and the tuxedo design lends itself to both a transitional and casual aesthetic while providing many optional features.

Pillow Cushions

The Pillow Back option has a more casual aesthetic and allows you to sink into the back cushion with ease.

Standard Cushions

The square, welted back cushion of the Standard Back creates a modern look while providing casual comfort.

Contrasting Fabric

Select up to three fabrics when using the Contrasting Fabric option. Specify a different color or pattern for the frame, seat and back cushions.

Throw Pillows

Order extra throw pillows, available in a Square or Lumbar version, to add a little extra comfort or a pop of color.

Power Modules

Add a power module to sit down, plug in and power up.
